Mr Tim Rehder

U S Environmental Protection Agency, Region VIII
999 18th Street, Suite 500, EPR-FT
Denver, Colorado 80202-2466

Dear Mr Rehder

The U S Department of Energy Rocky Flats Field Office is pleased to transmit to your organization a copy of the *Final Mound Site Plume Project Completion Report, Fiscal Year 1998*. The fiscal year 1998 work scope for the Mound Site Plume Project included installation of a 230-foot below grade impermeable-barrier collection system along with two treatment cells. Installation of the collection and treatment system was completed on September 18, 1998. The Environmental Protection Agency (EPA) Superfund Innovative Technology Evaluation (SITE) program began effluent sampling on October 28, 1998 after it was agreed that much of the tap water in-placed in the reactor vessels during construction and repair activities had been displaced by contaminated groundwater. EPA SITE program sampling will continue for one year. This completion report discusses the details in the system installation and provides as-built drawings for use in operation and maintenance activities and system modifications.

Following is the cost breakdown for the Mound Site Plume Project

Cost Breakdown

| | |
|--------------------|---------------|
| Site Services | \$55K |
| Project Management | \$115K |
| Construction | \$679K |
| Total | \$849K |

If you should have any technical questions related to this document, please contact Norma I. Castaneda at (303) 966-4226 or contact me at (303) 966-5918.

Sincerely,

Joseph A. Legare
Assistant Manager
for Environment & Infrastructure
